Project Design Phase II
Data Flow Diagram & User Stories

Date	6 March 2025
Team ID	SWTID1741283288158015
Project Name	FitFlex
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.
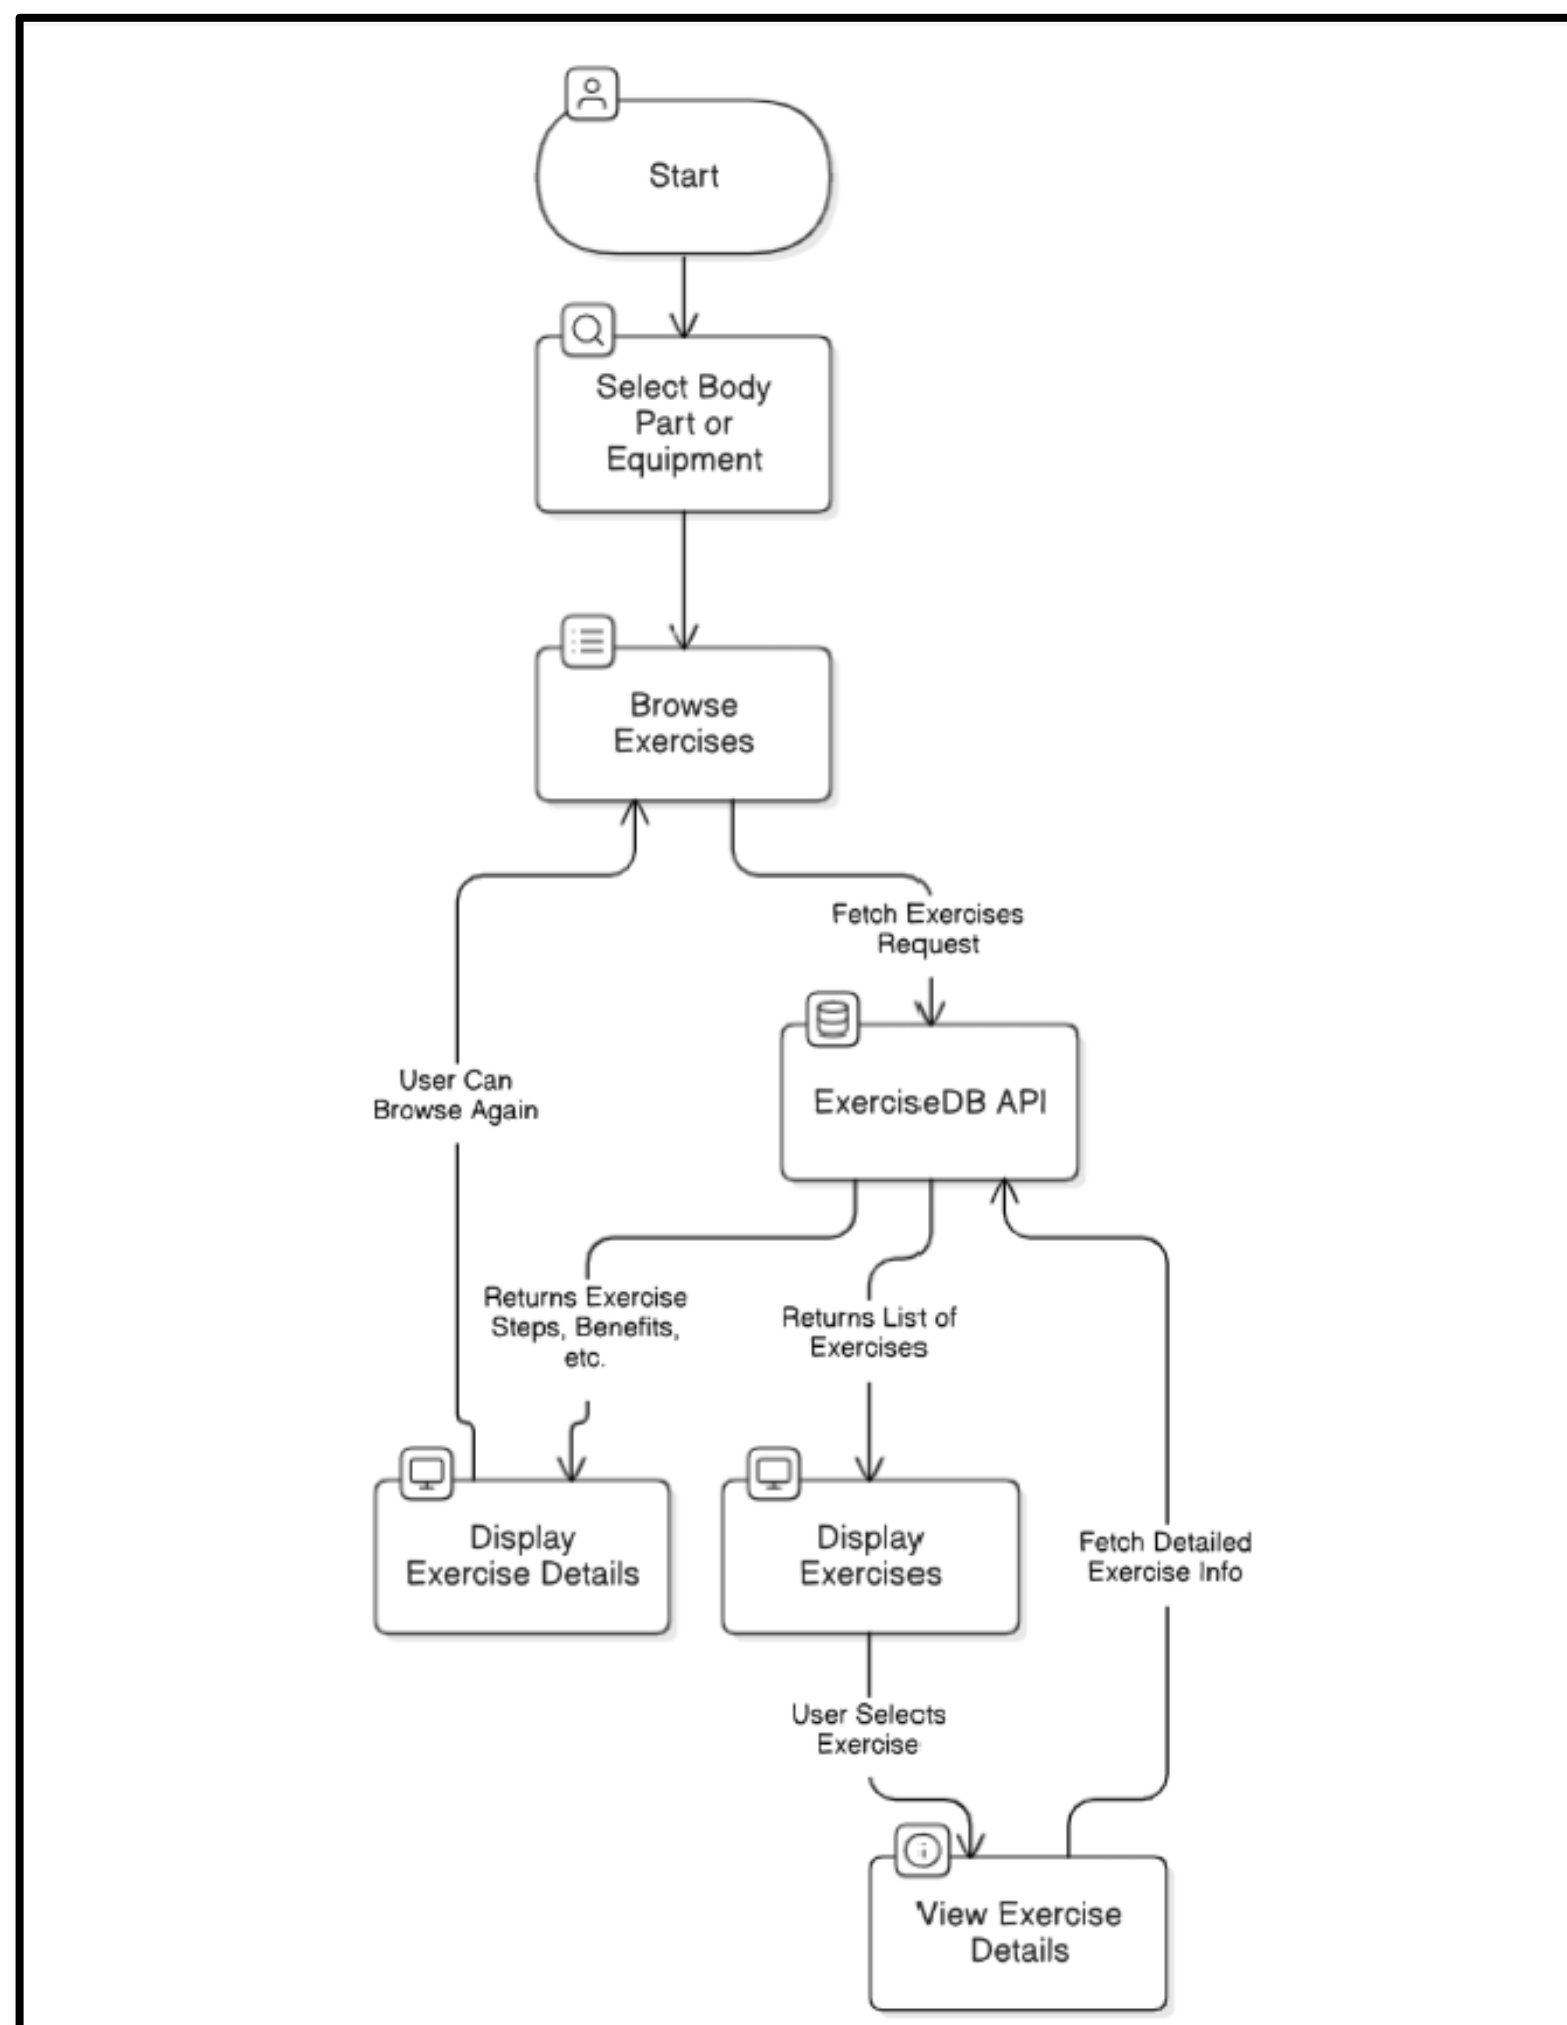

1. The User selects a body part or equipment.
2. The request is sent to Browse Exercises, which fetches relevant data from ExerciseDB API.
3. The API returns a list of exercises, which is displayed to the User.
4. The User selects a specific exercise, triggering the View Exercise Details process.
5. The ExerciseDB API provides detailed exercise information.
6. The app displays the details, and the User can either browse more exercises or select another one.

User Stories:

User Type	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web User)	USN-1	As a User, I can browse exercises by selecting a body part.	I can see a list of exercises related to the selected body parts.	High	Sprint-1
Customer (Web User)	USN-2	As a user, I can browse exercise by selecting equipment.	I can see a list of exercises related to the selected equipment.	High	Sprint-1
Customer (Web User)	USN-3	As a user, I view detailed explanations about exercise.	I can see exercise images, steps and target muscles	High	Sprint-1
Customer (Web User)	USN-4	As a user, I can see related Youtube videos.	I can navigate to the related videos on Youtube.	Low	Sprint-2
Customer (Web User)	USN-5	As a user, I can easily navigate to the home page.	I can click the home button and return to the home page.	High	Sprint-1
